linkedin.com/in/iamrushabhshahh

DevOps Engineer focused on building production-grade, cloud-native applications. Currently at Oro, operating Kubernetes platforms with Helm, Argo CD, Terraform, and the Grafana LGTM observability stack. Recognised as a **Docker Captain** (selected 2026, ~220 worldwide) and **Grafana Champion** (inaugural cohort, ~110 worldwide). I organise Grafana & Friends Ahmedabad, speak at meetups, publish a bi-weekly newsletter, and contribute to open source — including translating eBPF.io into Hindi.

EXPERIENCE

DevOps Engineer · Oro

Jun 2025 — Present

- Operate Kubernetes workloads with Helm and GitOps via Argo CD; standardised release pipelines on GitHub Actions across services.
- Provision and manage cloud infrastructure with Terraform; codify environments for reproducibility and auditability.
- Instrument services with Prometheus, Grafana, Loki, Tempo, and OpenTelemetry; improve on-call quality, alerting hygiene, and runbooks.
- Drive cloud cost optimisation through right-sizing and lifecycle automation; apply least-privilege access and secrets management across the platform.

Corporate Trainer · Koenig Solutions Pvt. Ltd.

Jun 2025 — Jul 2025

- Delivered live virtual and classroom training on Microsoft Azure role-based certifications (AZ-900, AZ-104, AZ-305, AZ-400) to working IT professionals across multiple regions and time zones.
- Translated dense Azure documentation into structured narratives, architecture diagrams, and hands-on labs for mixed-experience cohorts.

DevOps Engineer · Genuin

Jan 2025 — May 2025

- **Drove a 59% AWS cost reduction** via end-to-end audit, decommissioning, right-sizing, and automation that locked in the savings.
- Built end-to-end CI/CD pipelines, bringing release time down to ~10 minutes and giving engineering a predictable merge-to-prod path.
- **Led a zero-downtime AWS → Oracle Cloud Infrastructure migration** under a fixed business deadline.
- Implemented controls and operational practices for ISO and SOC Type 1 readiness covering access management, audit logging, change control.

Jr DevOps Engineer · KodeKloud

Jul 2024 — Dec 2024

- Designed and built hands-on Microsoft Azure labs for AZ-900, AZ-104, AZ-204, and AZ-400 aligned to current exam blueprints.
- Deployed and maintained cloud-based lab environments across AWS, Azure, and GCP for multi-cloud training simulations.
- Automated infrastructure provisioning and lifecycle management with Terraform, Ansible, and Bash.
- Represented KodeKloud at **KubeCon + CloudNativeCon India 2024**; engaged with the CNCF community.

Jr DevOps Engineer · Tridhya Tech Limited

Jun 2023 — Jun 2024

- Built and maintained Docker images and Kubernetes workloads, including base images, multi-stage builds, and standard deployment patterns.
- Designed CI/CD pipelines on Jenkins and GitHub Actions for client web applications; provisioned infrastructure with Terraform and Ansible across Azure and AWS.
- Earned AZ-900 (Azure Fundamentals) and AZ-104 (Azure Administrator); ran an internal TechTalk on Kubernetes for the engineering team.

HONORS & RECOGNITION

Docker Captain — Docker, Inc. (Selected 2026). One of ~220 worldwide. Recognised for technical expertise in containers and Kubernetes, real-world production experience, and consistent contribution to the global container community.

Grafana Champion — Grafana Labs (Selected 2026, inaugural cohort, ~110 worldwide). Invitation-only program for contributors who advance the observability community. Organise Grafana & Friends Ahmedabad meetup; run workshops on Prometheus, Loki, Tempo, Mimir, and OpenTelemetry.

TECH STACK

Containers & Orchestration

Kubernetes, Docker, Helm, Argo CD

IaC & Automation

Terraform, Ansible, GitHub Actions, Jenkins

Cloud Platforms

AWS, Microsoft Azure, GCP, Oracle Cloud Infrastructure

Observability

Prometheus, Grafana, Loki, Tempo, Mimir, OpenTelemetry

Languages & Tooling

Linux, Bash, Python, Git, CI/CD

CERTIFICATIONS & EDUCATION

AZ-104 Microsoft Certified: Azure Administrator Associate

AZ-900 Microsoft Certified: Azure Fundamentals

COMMUNITY & OPEN SOURCE

Organiser — Grafana & Friends Ahmedabad. Quarterly meetup on observability, OpenTelemetry, and the Grafana LGTM stack.

eBPF.io Hindi translation — translated the eBPF.io website to Hindi to make eBPF accessible to Hindi-speaking engineers.

Bi-weekly newsletter — technical write-ups, demos, and dashboards for the wider observability community.

Speaker — meetups and conferences on container engineering, cloud-native operations, and observability.
